

## **Immune Tolerance in Allergic Disease**

*Meakins-Christie Laboratories*

*Peter MacKlem Memorial Conference Room*

3626 St. Urbain Street, Montreal, QC

**Sponsored by:**

**GET-FACTS research network:**

**Genes, Environment and Therapies  
Food Allergy Clinical Tolerance Studies**

**November 14, 2012**

### **WEDNESDAY, NOVEMBER 14TH:**

- 8:30 **Introduction to workshop and GET-FACTS!**  
Dr. Bruce Mazer, Professor of Pediatrics  
McGill University
- 8:45 **The epidemiology of food allergy: Populations, communities and cohorts**  
Dr. Ann Clarke, Professor of Medicine  
McGill University
- 9:15 **Early life determinants of tolerance in allergic airway disease**  
Dr. Christine McCusker, Associate Professor of Pediatrics  
McGill University
- 9:45 **Tolerance induction in autoimmune disease**  
Dr. Ciro Piccirillo, Associate Professor of Pediatrics  
McGill University
- 10:15 **COFFEE BREAK**
- 10:30 **Gene-environment interactions in childhood asthma**  
Dr. Denise Daley, Assistant Professor of Medicine  
University of British Columbia
- 11:00 **From skin to within: Filaggrin and atopic disease**  
Dr. Yuka Asai, Assistant Professor of Medicine  
McGill University

**11:30 Tolerance or allergy? The role of environmental factors**

Dr. Moshe Ben Shoshan, Assistant Professor of Pediatrics  
McGill University

**12:00 The other side of food allergy**

Dr. Susan Elliott, Professor and Dean  
Faculty of Applied Health  
Waterloo University

**12:30 PGE2 inhibits macrophage-dependent anti-influenza immunity**

Dr. Maziar Divangahi, Assistant Professor of Medicine  
McGill University

**13:00 LUNCH****14:00 - 17:00 Investigators meeting****SUPPORTED BY:**
