

McGILL-GRENOBLE WORKSHOP ON SLEEP-DISORDERED BREATHING, COPD AND HYPOXIA

Monday, February 2, 2015

Meakins-Christie Laboratories, 3626 St Urbain Street Peter Macklem Memorial Conference Room 130

7:50 AM McGill University Coffee and Introductory Remarks Dr. Patrick Levy Grenoble University "Cardiometabolic effects" 8:30 AM Dr. Sushmita Pamidi McGill University "Pregnancy effects (gestational diabetes and low birth weight)" Dr. John Kimoff McGill University "Pregnancy effects (gestational hypertension)" Dr. Diane Godin-Ribuot Grenoble University "Arrhythmias and cardiac failure: From bench to bedside" Dr. Marta Kaminska McGill University "CNS effects (multiple sclerosis and Parkinsons)" 10:30 AM Coffee Break Dr. Jean-Louis Pepin Grenoble University "Liver injury: From non-alcoholic fatty liver disease to liver cancer" Dr. Basil Petrof McGill University "Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Grenoble University "Intermittent hypoxia and neuromuscular inflammation"		Dr. Basil Petrof
8:00 AM Dr. Patrick Levy Grenoble University "Cardiometabolic effects" Dr. Sushmita Pamidi McGill University "Pregnancy effects (gestational diabetes and low birth weight)" Dr. John Kimoff McGill University "Pregnancy effects (gestational hypertension)" Dr. Diane Godin-Ribuot Grenoble University "Arrhythmias and cardiac failure: From bench to bedside" Dr. Marta Kaminska McGill University "CNS effects (multiple sclerosis and Parkinsons)" 10:30 AM Coffee Break Dr. Jean-Louis Pepin Grenoble University "Liver injury: From non-alcoholic fatty liver disease to liver cancer" Dr. Basil Petrof McGill University "Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Grenoble University	7:50 AM	McGill University
8:00 AM Grenoble University "Cardiometabolic effects" Dr. Sushmita Pamidi McGill University "Pregnancy effects (gestational diabetes and low birth weight)" Dr. John Kimoff McGill University "Pregnancy effects (gestational hypertension)" Dr. Diane Godin-Ribuot Grenoble University "Arrhythmias and cardiac failure: From bench to bedside" Dr. Marta Kaminska McGill University "CNS effects (multiple sclerosis and Parkinsons)" Dr. Jean-Louis Pepin Grenoble University "Liver injury: From non-alcoholic fatty liver disease to liver cancer" Dr. Basil Petrof McGill University "Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Grenoble University		Coffee and Introductory Remarks
8:00 AM Grenoble University "Cardiometabolic effects" Dr. Sushmita Pamidi McGill University "Pregnancy effects (gestational diabetes and low birth weight)" Dr. John Kimoff McGill University "Pregnancy effects (gestational hypertension)" Dr. Diane Godin-Ribuot Grenoble University "Arrhythmias and cardiac failure: From bench to bedside" Dr. Marta Kaminska McGill University "CNS effects (multiple sclerosis and Parkinsons)" Dr. Jean-Louis Pepin Grenoble University "Liver injury: From non-alcoholic fatty liver disease to liver cancer" Dr. Basil Petrof McGill University "Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Grenoble University		
### Cardiometabolic effects" Dr. Sushmita Pamidi McGill University #Pregnancy effects (gestational diabetes and low birth weight)" Dr. John Kimoff McGill University #Pregnancy effects (gestational hypertension)" Dr. Diane Godin-Ribuot Grenoble University #Arrhythmias and cardiac failure: From bench to bedside" Dr. Marta Kaminska McGill University #CNS effects (multiple sclerosis and Parkinsons)" 10:30 AM Coffee Break Dr. Jean-Louis Pepin Grenoble University #Liver injury: From non-alcoholic fatty liver disease to liver cancer" Dr. Basil Petrof McGill University #Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Dr. Claude Arnaud Dr. Claude Arnaud Grenoble University #Intermittent hypoxia and neuromuscular inflammation"	8:00 AM	Dr. Patrick Levy
B:30 AM		
8:30 AM McGill University "Pregnancy effects (gestational diabetes and low birth weight)" 9:00 AM Dr. John Kimoff McGill University "Pregnancy effects (gestational hypertension)" 9:30 AM Dr. Diane Godin-Ribuot Grenoble University "Arrhythmias and cardiac failure: From bench to bedside" 10:00 AM McGill University "CNS effects (multiple sclerosis and Parkinsons)" 10:30 AM Coffee Break 10:45 AM Dr. Jean-Louis Pepin Grenoble University "Liver injury: From non-alcoholic fatty liver disease to liver cancer" 11:15 AM Dr. Basil Petrof McGill University "Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Grenoble University Dr. Claude Arnaud Grenoble University		"Cardiometabolic effects"
8:30 AM McGill University "Pregnancy effects (gestational diabetes and low birth weight)" 9:00 AM Dr. John Kimoff McGill University "Pregnancy effects (gestational hypertension)" 9:30 AM Dr. Diane Godin-Ribuot Grenoble University "Arrhythmias and cardiac failure: From bench to bedside" 10:00 AM McGill University "CNS effects (multiple sclerosis and Parkinsons)" 10:30 AM Coffee Break 10:45 AM Dr. Jean-Louis Pepin Grenoble University "Liver injury: From non-alcoholic fatty liver disease to liver cancer" 11:15 AM Dr. Basil Petrof McGill University "Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Grenoble University Dr. Claude Arnaud Grenoble University		
"Pregnancy effects (gestational diabetes and low birth weight)" Dr. John Kimoff McGill University "Pregnancy effects (gestational hypertension)" Dr. Diane Godin-Ribuot Grenoble University "Arrhythmias and cardiac failure: From bench to bedside" Dr. Marta Kaminska McGill University "CNS effects (multiple sclerosis and Parkinsons)" 10:30 AM Coffee Break Dr. Jean-Louis Pepin Grenoble University "Liver injury: From non-alcoholic fatty liver disease to liver cancer" Dr. Basil Petrof McGill University "Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Grenoble University	8:30 AM	
Dr. John Kimoff 9:00 AM McGill University "Pregnancy effects (gestational hypertension)" Dr. Diane Godin-Ribuot Grenoble University "Arrhythmias and cardiac failure: From bench to bedside" Dr. Marta Kaminska McGill University "CNS effects (multiple sclerosis and Parkinsons)" 10:30 AM Coffee Break Dr. Jean-Louis Pepin Grenoble University "Liver injury: From non-alcoholic fatty liver disease to liver cancer" Dr. Basil Petrof McGill University "Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Grenoble University		
9:00 AM McGill University "Pregnancy effects (gestational hypertension)" 9:30 AM Grenoble University "Arrhythmias and cardiac failure: From bench to bedside" 10:00 AM McGill University "CNS effects (multiple sclerosis and Parkinsons)" 10:30 AM Coffee Break 10:45 AM Grenoble University "Liver injury: From non-alcoholic fatty liver disease to liver cancer" 11:15 AM McGill University "Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Grenoble University		"Pregnancy effects (gestational diabetes and low birth weight)"
9:00 AM McGill University "Pregnancy effects (gestational hypertension)" 9:30 AM Grenoble University "Arrhythmias and cardiac failure: From bench to bedside" 10:00 AM McGill University "CNS effects (multiple sclerosis and Parkinsons)" 10:30 AM Coffee Break 10:45 AM Grenoble University "Liver injury: From non-alcoholic fatty liver disease to liver cancer" 11:15 AM McGill University "Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Grenoble University		
## Pregnancy effects (gestational hypertension)" Dr. Diane Godin-Ribuot Grenoble University "Arrhythmias and cardiac failure: From bench to bedside"		
9:30 AM Grenoble University "Arrhythmias and cardiac failure: From bench to bedside" Dr. Marta Kaminska McGill University "CNS effects (multiple sclerosis and Parkinsons)" 10:30 AM Coffee Break Dr. Jean-Louis Pepin Grenoble University "Liver injury: From non-alcoholic fatty liver disease to liver cancer" Dr. Basil Petrof McGill University "Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Grenoble University	9:00 AM	· ·

11:15 AM McGill University "Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Grenoble University		The state of the s
"Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Grenoble University	11:15 AM	Dr. Basil Petrof
"Intermittent hypoxia and neuromuscular inflammation" Dr. Claude Arnaud Grenoble University		McGill University
Dr. Claude Arnaud 11:45 AM Grenoble University		
11:45 AM Grenoble University		
	11:45 AM	Dr. Claude Arnaud
"Atherosclerosis and lipid mediators"		Grenoble University
		"Atherosclerosis and lipid mediators"

	Dr. Carolyn Baglole
12:15 PM	McGill University
	"Cigarette smoke-induced inflammation"
12:45 PM	Lunch
	Dr. Benjamin Smith
2:00 PM	McGill University
	"A cardiac imaging phenotype in COPD and shared implications for sleep apnea"
	Dr. Samuel Verges
2:30 PM	Grenoble University
	"Exercise fatigue in COPD and hypoxia"
	Dr. Dennis Jensen
2 00 DM	
3:00 PM	McGill University "Exercise limitation in COPD and obesity"
	Exercise timulation in COID and obesity
	Dr. Dussall Hamla
3:30 PM	Dr. Russell Hepple McGill University
3.30 1 WI	"Skeletal muscle effects of aging"
	Sketetat muscle effects of aging
	Dr. Tanja Taivassalo
4:00 PM	McGill University
	"Mitochondrial DNA damage and depletion in COPD locomotor muscle"
1.20.77.5	
4:30 PM	Coffee Break
	BEER SEMINAR
	Dr. Susan Lynch
4:45 PM	Associate Professor of Medicine
	University of California San Francisco
	"The microbiome and childhood allergic asthma"
	2.10 miles de distribuir de di
6:00 PM	DINNER: Restaurant Laloux

McGILL-GRENOBLE WORKSHOP ON SLEEP-DISORDERED BREATHING, COPD AND HYPOXIA

Tuesday, February 3, 2015

Meakins-Christie Laboratories, 3626 St Urbain Street Peter Macklem Memorial Conference Room 130

8:00 AM	Dr. Samuel Verges Grenoble University ''Mechanisms and interest of hypoxic preconditioning as an innovative treatment for chronic diseases''
8:30 AM	Dr. Sabah Hussain McGill University "Role of autophagy in tissue homeostasis and therapeutic potential"
9:00 AM	Dr. Jean-Louis Pepin Grenoble University "Innovative techniques for rehabilitation programs in obese obstructive sleep apnea/obesity-hypoventilation syndrome patients (NIV, training of respiratory muscles, electrostimulation)"
9:30 AM	Dr. Jean Bourbeau McGill University "Deep phenotyping, biomarkers and merging of large databases in COPD"
10:00 AM	Dr. Jean-Louis Pepin Grenoble University ''Deep phenotyping, biomarkers and merging of large databases in obstructive sleep apnea''
10:30 AM	Coffee Break
10:45 AM	BRAINSTORMING SESSIONS
12:00 PM	Dr. Basil Petrof McGill University "Where do we go from here? Synthesis and identification of future collaborations and possibilities for joint grant applications"
12:30 PM	Lunch
2:00 PM	Guided tour for Grenoble group of the Meakins-Christie Laboratories and clinical research facilities of the new McGill University Health Centre
4:00 PM	Departures
